SUPPLEMENTARY INFORMATION:

I. Abstract

The United States and several other countries have increased the effectiveness of their respective controls over international trade in strategic commodities by means of an Import Certificate procedure. For the U.S. importer, this procedure provides that, where required by the exporting country, the importer submits an international import certificate to the U.S. Government to certify that he/she will import commodities into the United States and will not reexport such commodities, except in accordance with the export control regulations of the United States. The U.S. Government, in turn, certifies that such representations have been made.

II. Method of Collection

Submitted electronically or on paper.
